

Maxion Wheels, a division of Iochpe-Maxion Audio Conferencing – Global Access Numbers

For international users and participants, Global Access Numbers have been established as a cost-effective method to conduct global conference calls both within your country and outside it. Below is a list of all Global Access Numbers available to you.

1. On the list below, locate the country you are calling from.
2. Use Local dial-in Numbers to join conference calls. This is almost always the most cost effective number to use.
 - a. If no Local dial-in is available, it may be less expensive to use a neighboring country's International dial-in. Please check with your local telecom company to evaluate if using a neighboring country's International dial-in is cost-effective.
3. If you are calling from a country not on this list, you will need to dial the international prefix for the country you're calling from, followed by **+1-734-737-8080**.
4. When prompted for a conference id, callers should enter code provided by the meeting organizer, followed by #.
